

## A SHORT SPEECH FOR OUR HONOURABLE VISITOR ON 9<sup>TH</sup>

OCTOBER 2005

Your Excellence

Guest of honour, our honourable visitor from Germany the teacher of CAMARTEC and Nambala School teachers, Parents and Pupils of Nambala community and other invited Guest children ladies and gentlemen. I would like to take this opportunity to thank you for coming and your all welcome. And I extend my sincere thanks to the guest of honour for accepting our request of being honourable visitor in this function. We also kindly ask you to share with us as one of host member of our specially guests from Germany who are donor agents in this project. They are warmly welcome.

The following is a short history of Nambala – CAMARTEC, Pre- Primary School Which started in 1983. Now it has got two classrooms, 2 teaching staff and 77 registered pupils under session. The School registers pupils of age 5 – 6 and lessons taught in this school are Mathematics, Language, ( Kiswahili, English) Health, Fine art, Science and Sports. *music*

The School has a patron who is honourable, Director General of CAMARTEC Mr Ng'wandu. Also we have got school committee members under the chairperson Mr Makumbo.

Your Excellency,

The background of to day's function is as follows.

Mr Eckard Krause is our great family friend (Mr Patrick Mshana). When he visited our family with Mr. Rene and others. He was Curious and wanted to know the school I work with my pupils. After visiting the School, he observed our problems with serious concern and promised to build a dinning room for the pupils. By then our pupils were bound to take their tea/porridge break out side

the open air where is full of dust, wind and suny not to mention water shortage and other unhygienic environment not conducive for better living. And in this therefore he took our problem seriously and requested for map drawing of the building and cost construction to Carter for thpapas. After sending him the sketch map of the building, he organized and secured funds from MISERIOR – A Roman Catholic relief agency organization. Himself and Family Friends in Germany. Under this under taking he managed to send us Tshs. 4,100,000/= m. The construction of the building started in may 2005 and today is ceremonial opening and handing over to Nambala and CAMARTEC Community.

**NB:** This fund was sent through Mshana's family who was entrusted to operate and supervise fund transactions under school committee observation.

Your Excellency,

According to the Governments regulations that all pupils should first get Pre-primary education, we decided to enlarge the building from the original design for more carrying capacity Thus the cost of building changed and up to the stage of completion which you see, we have spent Tshs 4,237,200/=. We also got assistance from the honorable patron Director General of CAMARTEC Tshs. 100,000/=. CAMARTEC workers Tshs 28,500/= and without forgetting some labour in put by Nambala school parents of the children.

So far so good, but in order to wind up finishing extra Tshs 700,000/= is now needed. Leave alone other fittings like desk / tables, black board and other miner works whose cost will be known later. However this fund needed has been released and sent to us pending banking procedures.

Your Excellency

This building in future will also be used as place to teach technical studies in the evening spare time such as cookery, needlework, other hand crafts skills, and

not to mention information technology – elementary computer skills for those children who will fail to get chance to join Secondary education.

**NB:** Because of love, harmony and patronization spirit showed by these Germany friends and MISEREOR relief agent we have decided to name this building MOSEREOR room as to honour this did cated NGO and Germany people.

Your Excellency,

These friends from German are even more determined and planning to help orphans in our village, they already have twenty names of orphans, to start with and Mr Eckard Krause has visited some families and promised to help them phase by phase, as far as fund availed can allow, By paying school fees and school materials which they needed and Medicare support where necessary.

Also he has ordered for another building plan map and costs of constriction the building, which will entail – a model kitchen, toilet and technical room for computer. And not only that, but also, electricity and tap water source connected, to the building, fence and gate erected for stopping trespassing, and reinforcing security measures.

May God bless these family friends from German for their did cated kindness love and harmony to start and run this project tirelessly, The dynamic project which has paramount social and economic impact to our society.

Your Excellency,

On behalf of Tanzania Government, (Ministry of education) on my be half and my family, Nambala community, Parents, teachers and pupils we give our sincerely thanks to all who helped and still willing to help us on this big under takings. Especially to name a few Mr Eckard Krause the manager of the project and fund solicitor and his companion friends in the long list of attached appendix

and not to forget MISEREOR – a dedicated Roman Catholic helping hand organization all Germany (NB: for details refer attached appendix listed with names of current donating agents/persons)

In this therefore, the Namba CARMATEC School organization has planned to give a very little presents to our visitors, so we kindly ask you to give them.

Your Excellency

Before you give your speech, With pleasure may I allow and request the project manager Mr Eckard Krause to say briefly about his vision and mission on this noble dynamic project which he himself and others initiated 1983 in his second visit to Tanzania. And then may I request your Pleasure to give certificates to our pupils who have completed their pre-primary education. And then to be followed by building handed over by the project manager to you on behalf of the minister of education then you will open and inspect building. And finally inaugurate it by giving your brief speech.

Your Excellency

Before I sit down I will be unthankful without expressing my sincere thanks for those who diligently participated with me in this work of building construction being a fund operator and supervisor. All people including the Head Teacher and his teaching staff of Nambala primary were hardworking, very co-operative and loyal in terms of material goods and moral spirit, which enabled me and my family without failure in fulfilling the role and task entrusted to us for the sake of Nambala community development and Tanzanian nation at large.

Your Excellency

May I end up by saying I wish you all the best especially our honorable visitors from Germany we wish them good enjoyable flight back home and let them pass

our best regards to their friends, families, donors agents and other well wishing Germany people.

Thanks a lot, thank you for coming and join **us** in this golden ceremony, may God bless you. Fare well to all of you and your warmly welcome any time to Nambala Primary School.

Yours Sincere

.....

Anna P. Mashana

Leading Teacher Nambala CAMARTEC Nursery Primary School.
